

## New Bern Campus Room Descriptions and Seating Capacities

The following seating capacities were derived by examining the Fire Code room capacity and ADA compliance guidelines. The final capacity takes into account room square footage, the size and layout of classroom furniture, ingress/egress routes, and other OSHA safety requirements. Maximum occupancy for each room is equivalent to the seating capacity plus one (e.g. # student seats + 1 instructor). Classroom capacities should not vary from semester to semester. Chairs and desks should not be moved into or out of any of the classrooms to accommodate overflow. Any change to the classroom capacity must be approved by the administration.

**Primary Scheduling Rights:** WD = Workforce Development; LA = Liberal Arts; CP = Career Programs; HP = Health Programs; LLC = Lifetime Learning Center
