

Directions for connecting to the CCC Wireless Network

1. Turn on your laptop.
2. After your laptop has booted, wait for the "Wireless Networks Detected" message:

3. Double click on this message. After double clicking the previous message, this is the window you should see:

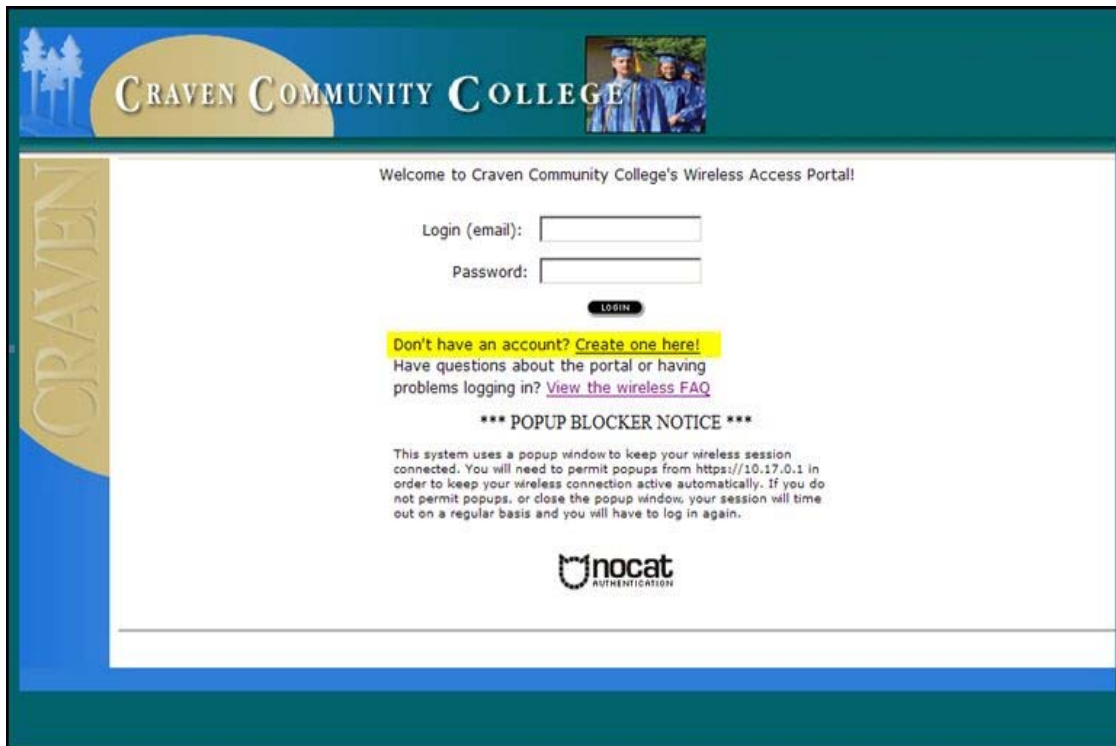

Note: If the text to the right of "Craven WiFi" says "Connected", you are already connected to the wireless network. If it says Manual, click on it and then choose "Connect".

4. Start the Internet Explorer web browser.
5. You may get a notification about the websites security certificate, ignore the notification and "Click" on continue to this website.

Directions for connecting to the CCC Wireless Network

The webpage you should see now is the login page to the wireless network.

The screenshot shows the login page for Craven Community College's Wireless Access Portal. The page has a teal header with the college logo and name. Below the header, there is a white login area with a 'Welcome to Craven Community College's Wireless Access Portal!' message. The login fields include 'Login (email):' and 'Password:', both with input boxes. A 'LOGIN' button is positioned below the password field. A yellow highlight is placed over the text 'Don't have an account? Create one here!'. Below this, there is a link to 'View the wireless FAQ'. A '*** POPUP BLOCKER NOTICE ***' section follows, explaining that the system uses a popup window to maintain the wireless session and that users must allow popups from the IP address 10.17.0.1. At the bottom of the page, the 'nocat AUTHENTICATION' logo is visible.

6. To create an account, click on the link that says " Create one here."

At this time, if you have any pop-up blockers installed on your computer, you need to either:

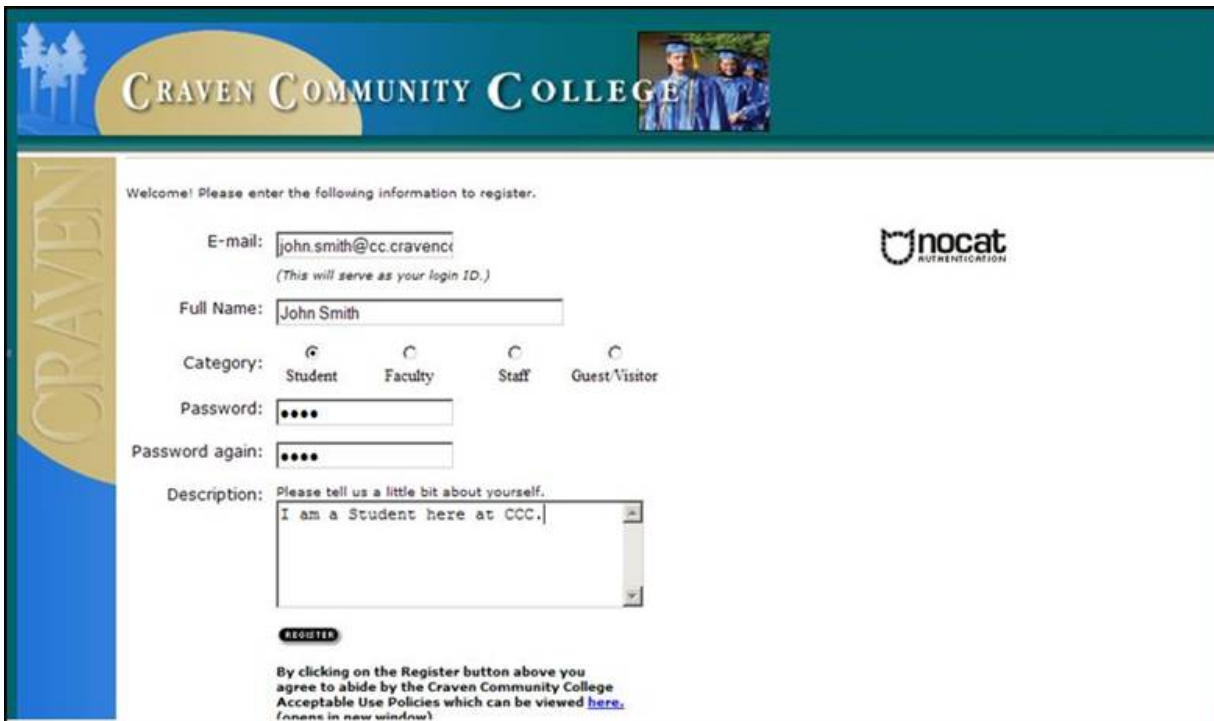

Disable the pop-up blocker or add the IP Address 10.61.32.1 to allow pop-ups. **If you do not do this, your connection to CCC's Wireless network will time out after fifteen minutes.**

7. Fill out the registration page.

In the Category area, choose whether you are a Student, Faculty, Staff, or a Guest of CCC.

Your password must be at least six alpha/numerical characters long.

The screenshot shows the registration page for the NoCat network at Craven Community College. The page has a blue header with the college's name and logo. The main content area is white and contains a registration form. The form includes fields for E-mail (john.smith@cc.cravenc), Full Name (John Smith), Category (Student, Faculty, Staff, Guest/Visitor), Password, and Password again. There is also a Description field with the text "I am a Student here at CCC." and a REGISTER button. A disclaimer at the bottom states: "By clicking on the Register button above you agree to abide by the Craven Community College Acceptable Use Policies which can be viewed [here](#). (opens in new window)".

When you are done filling out the registration page.

8. Click on the register button. By clicking on the register button, you are agreeing to abide by Craven Community College's Acceptable Use Policy.

After clicking the register button, you will see the following page:

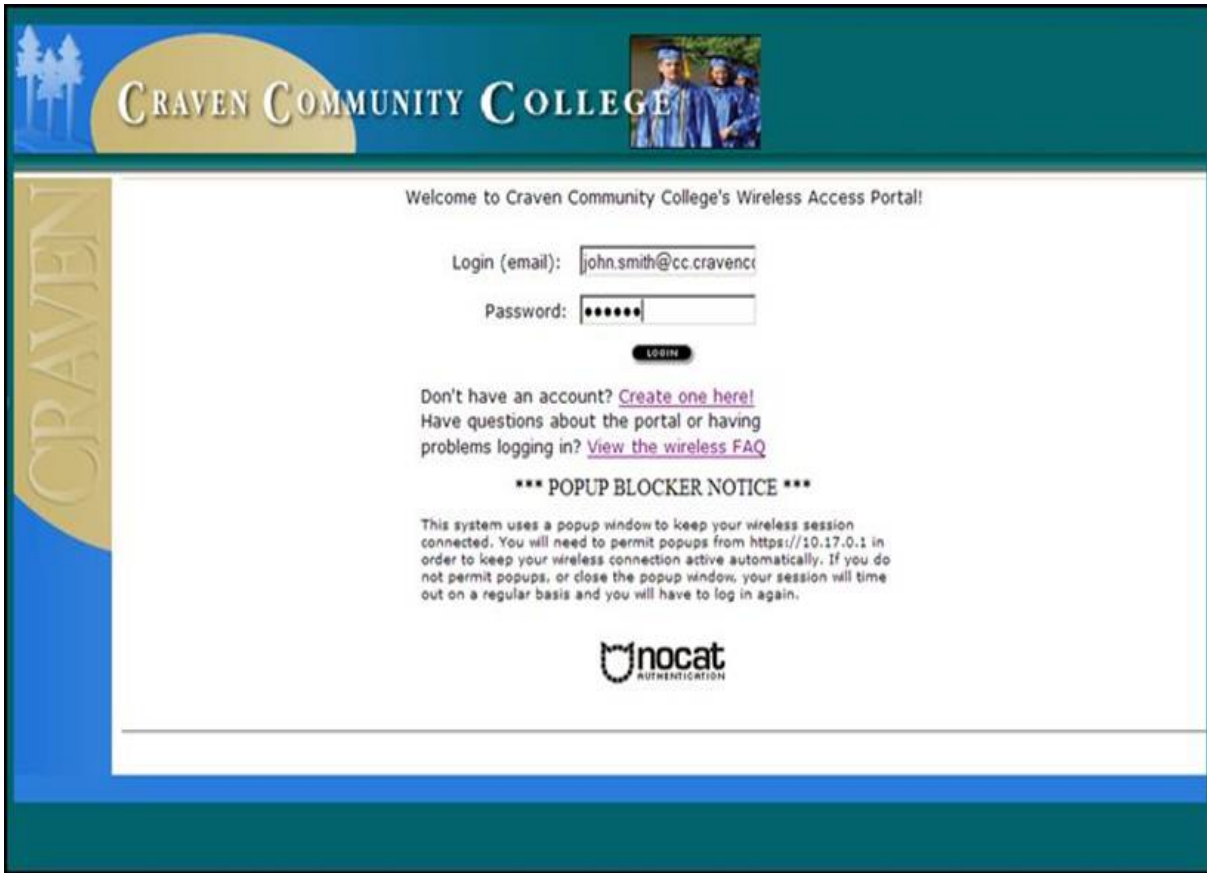

The screenshot shows the confirmation page after registration. It features the NoCat logo at the top left. The main text reads: "Thank you for registering with the NoCat network, John Smith!". Below this, it says: "You may need to log in to continue. Redirecting to [5: URL=http://www.google.com/](http://www.google.com/) in five seconds...".

Please wait patiently for the login page to load.

9. Login in to the wireless with the email address and password you just entered on the previous registration page.

The screenshot shows the Craven Community College Wireless Access Portal. At the top, there is a header with the college logo and a photo of graduates. Below the header, the text reads "Welcome to Craven Community College's Wireless Access Portal!". There are two input fields: "Login (email):" with the value "john.smith@cc.cravenc" and "Password:" with a masked password "*****". A "LOGIN" button is positioned below the password field. Below the login fields, there are links for "Create one here!" and "View the wireless FAQ". A section titled "*** POPUP BLOCKER NOTICE ***" explains that the system uses a popup window to keep the wireless session connected and provides instructions on how to manage popups. At the bottom of the page, the "nocat AUTHENTICATION" logo is displayed.

After you login, you will see this Pop-up window:

10. Do **NOT** close this window, it must remain **OPEN** to stay connected to the Wireless Network. You can now Access the Internet from your laptop.

Note: You will not be able to print or connect to any of CCC's internal network services.
